

Reinsurance

Cover

- Property Catastrophe Excess of Loss – providing insurance companies with per event protection on a treaty basis in excess of a meaningful deductible
- Aggregate Excess of Loss – providing insurance companies with protection against an aggregation of claims beneath their Cat XoL deductible
- Risk Excess of Loss – providing a treaty that covers an insurance company's portfolio on a per location basis, in excess of a meaningful deductible
- Retro Excess of Loss – providing reinsurance companies with per event coverage on a treaty basis
- Industry Loss Warranties – providing a risk management tool for companies where the trigger is market insured loss, rather than direct sustained loss
- Whole Account Excess of Loss – providing protection for (re)insurance companies across multiple lines of business

Subclasses

- Property Catastrophe Excess of Loss
- Aggregate Excess of Loss
- Risk Excess of Loss
- Retro Excess of Loss
- Industry Loss Warranties
- Whole Account Excess of Loss Business
- Workers Comp Cat
- Property Quota Share

Appetite

- Property Catastrophe/Aggregate/Risk Excess of Loss – for North America preference is for homogenous personal lines exposure in single regions or zones but there is appetite for nationwide and commercial lines focussed carriers. For International business, the preference is for companies with a single country portfolio, with more limited appetite for multi-zone writers
- Retro Excess of Loss – there is greater appetite for non-US exposed portfolios.
- Industry Loss Warranties – target is triggers in non-peak zones
- Whole account excess of loss – target is short tail lines, generally for Lloyd's Syndicates

Target Clients

- Insurance companies worldwide
- Reinsurance companies worldwide
- Retrocessional markets worldwide

Capabilities

- Property Cat/Agg Excess of Loss - \$250m
- Property Per Risk Excess of Loss - \$150m
- Retro Excess of Loss - \$200m
- Whole Account Excess of Loss - \$200m
- Up to 36-month policies
